

MACHABA CAMP & LITTLE MACHABA

GAME SIGHTINGS

MAY 2026

PHOTOS COURTESY OF NALA MALAN

Khwai was pumping once more this month of May: Lions, Leopards, Hyenas and Wild Dogs... Our predator count was high once more... The hyena den is very active with cubs of all ages playing around the den. It is a very popular sight indeed. Our resident leopardess Seronga is still successfully raising her cub Pelo. The little one is starting to hunt smaller prey alone. We even saw her trying to pull up an impala carcass into a tree after she accidentally dropped it... Elephants are making their way back to camp and to the river Khwai. Still some water around, but it has dropped considerably throughout the month...
