

[Machangulo Beach Lodge](#) in Mozambique has enjoyed a fantastic makeover over the past few months. A lot of time, effort and investment has gone into soft refurbishments and the attention to detail - enhancing the look with vibrant colours and textures. The main guest areas have been refreshed and make the most of the magnificent views over Inhaca Island.

The lodge also welcomed Jacques and Tish van Eck as its new management couple towards the end of last year. The couple has many years hospitality experience between them and Jacques is an amazing chef so has taken the cuisine at Machangulo to a new level. Jacques has a real passion for sourcing local ingredients and loves to serve up fresh seafood straight from the ocean.

Machangulo offers a world of fun and exciting activities for the whole family – from relaxing and soaking up the sun on a lounge to the thrill of big game fishing. There is a full activity centre on site with friendly, knowledgeable staff on standby to offer activities like scuba diving, snorkelling, Dhow cruises, fishing (on and off shore), dune walks and canoeing. Excursions can include visits to Santa Maria village, Bemji's Beach Bar for a sundowner, a picnic and tour of Inhaca Island and even Maputo City tours.

The spa offers spectacular views, energized by the ocean and calmed by the dune forest, which complement the range of Africology treatments including facials, massages and body wraps.

The lodge is just around a 90-minute boat trip from Maputo Marina making it far more easily accessible and affordable beach option than most areas of Mozambique.
