

# MalaMala's 'New' Sable Camp Revealed

We are delighted to share the first “official” images of MalaMala’s “new-look” Sable Camp. MalaMala has always had a uniquely African character and, as the images below demonstrate, it has stayed true to its roots. The new interiors beautifully blend old and new, classic and contemporary – whilst preserving the soul and heritage of the camp. We would appreciate it if you would update your websites and share the new look with your clients.
