

Surrender to the Luxury of Slow... for time is the greatest luxury

The Blue Train's Winter Warmer

Book a trip on board Africa's Leading Luxury Train between now and 28 Feb 2019 for travel in South Africa's Winter season (May, June & July) and get a 50% discount for partners.

Rates between Pretoria and Cape Town (in either direction) start from R18,405 per person sharing a De Luxe suite (all inclusive) - but the second person will pay only half price!

South Africa's Winters are a great time to visit – benefiting from off season prices and much better game viewing if you choose to go on a safari. And don't let the word Winter put you off ... South Africa has lovely, sunny, mostly dry, warm winters!

Other exciting news is that The Blue Train recently revealed its second Observation Car which has been added to its shorter train set - so that both trains now offer this guest experience at the end of the train. But the reinvention has not stopped there! From 1 January 2019 the train's classic cross-country journey between Cape Town and Pretoria (in either direction) will be a much slower, more relaxed experience stretching over two nights instead of just one, with more convenient departure and arrival times.

Normal terms and conditions as well as Nett rates apply. Payments to be received by 28 February 2019.
